

# Double Exposure

What is a Double Exposure?

Using a stationary camera you will create 2 Different Original Compositions by combining multiple images. This assignment can be shot on your own or during class. You can select each option once or choose the same option for both compositions.

## Option 1: Repeated Subject

- Choose a location
- Find a person or animal to photograph
- Set up camera in a stationary location – do not move it!
- Shoot a minimum of 2 images with your subject in different positions

## Option 2: *SPACE* - Showing Limited Space and Depth of Field

- Choose a location
- Find a person or animal to photograph
- Shoot at least 1 image showing an emphasis of depth
  - \_\_\_\_\_
  - \_\_\_\_\_
  - \_\_\_\_\_
- Shoot a minimum of 1 image of your subject showing limited depth of field
